WALFORM SEALS

Features

- Viton standard seal material
- Available for 6mm to 42mm tube outer diameter (L - Light series & S – Heavy series)
- Build to DIN 2353 specifications
- Provides sealing along the tube and 24 degree fitting body
- Leak free connections
- Installed after pre-assembly

Walform Seals

Benefits of Using Walform Fitting System

- Avoid insufficient or excessive tightening issue. The standard is consistently controlled by the machine assembly as the pressure point clearly indicates the end of assembly travel.
- Ensure reliability under dynamic pressure impulse and vibration loads.
- Simple, practical and safe assembly process. With the use of seal, chances of damage during pre-assembly with cutting rings are eliminated.
- Easy to exchange for repeated assembly.
